PVC cable

1,82 m

Highlights

- USB-C® to USB-C® male cable with an additional USB-A dongle adapter enables you to connect interchangeably between USB-C® and USB-A ports.
- PVC and nylon braided jacket for additional durability and stability.
- With 6.6 ft length, the bidirectional USB data line withstands heavy usage with great performance.
- Easy to carry and more convenient to use. Compatible with most charger adapters no matter if it has a USB-C® or a USB-A charging port.
